

## OXISCAN

**PURPOSE:** Tests oxygen levels in the body

**LENGTH:** Approx. 15 minutes

**PREP:** NO breathing medications or inhalers the day of the test

### **SPECIAL INSTRUCTIONS/ADDITIONAL INFORMATION:**

- You will have your oxygen level tested in a resting position and again after walking approx. 5 minutes up and down the hall with a pulse-ox machine.
- You will be given an oxiscan to take home and wear on your finger during your sleeping hours.
